Premier Miton Monthly Income Fund (the “Fund”) - Class B Shares
A sub-fund of Premier Miton Income Funds ICVC (the “Company”)
Class B Income Shares, ISIN no.GB0003891412 (representative share class) & Class B Accumulation Shares, ISIN no. GB00BLBJBJ86
Authorised Corporate Director (“ACD”) - Premier Portfolio Managers Ltd.

Objectives and investment policy

The objective of the Fund is to provide an income together with capital growth over the long term, being five years or more. Income is paid monthly as dividend distributions.

The Fund will invest a minimum of 80% of its assets in shares of companies listed in the UK.

Up to 20% of the Fund may be invested in other investments including listed company shares in other geographical regions, fixed income (including bonds issued by governments or companies, which could either be investment grade (higher quality) or non-investment grade (lower quality) bonds), convertible bonds (bonds that can convert into company shares), deposits, cash and near cash.

The Fund is expected to hold between 40 and 60 individual investments, which will be diversified across a range of different industries, sectors and different sized companies. The Fund Manager will focus on the dividends paid by those companies and assess whether they are sustainable and likely to grow over time.

The Fund may invest in derivatives, warrants and forward transactions (whose value is based on the change in price of an underlying investment) for the purposes of efficient portfolio management, including hedging. The use of derivatives will be limited.

The Fund is actively managed which means that the Fund Manager will manage and adapt the portfolio depending on their assessment of the broad economic environment and market conditions but always within the boundaries outlined in the Fund's objective and policy.

The full investment objective and policy, which outline all the eligible investments, are available in the Fund's prospectus.

The minimum recommended term for holding shares in this Fund is at least 5 years. This does not mean that the Fund will achieve this objective over this, or any other, specific time period and there is a risk of loss to the original capital invested.

You can buy, sell and switch shares in the Fund on any UK business day. We will need to receive your instruction before 12 noon to buy shares at that day's price.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

←

Typically higher rewards,
higher risk

→

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Fund is ranked as 5 because it has experienced medium to high rises and falls in value over the past five years.

Please note that even the lowest ranking does not mean a risk-free investment.

The Fund holds equities concentrated by location in the UK. Equities, as an asset class, tend to experience higher volatility than many other asset types such as bonds or money market instruments. Funds concentrated in one geographic location are more exposed to market sentiment, positive or negative, in that location and can carry a higher risk than funds holding more geographically diversified assets. The fund holds some equities denominated in foreign currencies adding to both risk and the possibility of gain. The Investment Adviser will typically not undertake any hedging of those movements adding a further risk. Funds with higher price volatility are structured to generate higher returns but at the risk of larger potential losses.

The level of income is not guaranteed and may not be achieved.

The indicator may not take fully into account the following risks of investing in this fund:

- **Legal or tax risk:** arising from a change in legal regulations, tax rules or the application of them.

A more detailed description of the risks identified as being applicable to the Fund are set out in the 'Risk Factors' section of the Prospectus.
